

15th Annual EPAC Conference on Biofuels
June 12-14, 2005

"Spurring Ethanol into the Future"

The "Spurring Ethanol into the Future" Conference provided an opportunity to learn more about viable domestic renewable energy transportation fuels that can decrease our reliance on foreign oil, enhance rural economic development, and reduce pollution from transportation. Below is the agenda in the order presented. A speaker's name is linked to available a biography and photo, if available. Presentation titles are linked to either a short summary or available Power Point presentations. This agenda does not necessarily follow previously printed schedules.
